

MEMORANDUM

TO: Case Senate, Budget Committee. Tom Seeman, Chairman.

FROM: Case Amateur Radio Club

SUBJECT: Budget Requests

Enclosed, please find our proposed budget for the 1963-64 school year. We are asking for what will probably seem a considerable sum for a new club. We offer the following reasons justifying our requests.

1. Good equipment costs money whether used, new, or built by the members. Receivers of good quality cost between 300 to 1600 and transmitters cost from 300 to 3500, using amateur net costs.
2. Case is a technical school and the students show much interest in the radio club. The present station, equipped with gear loaned by members, is operated approximately 5 hours per school day with several hours activity on weekends. We have 20 full members eligible to operate and about 15 others interested but not licensed to operate by the FCC. This membership has been built up during the past 3 months.
3. Most schools of engineering and science (Case is a notable exception) have elaborate stations worth several thousand dollars. We feel that with good equipment, activity will be increased and we will appear better to others listening. We feel we can promote the name of Case better than any other organization supported by the Senate. Amateur radio brings us in touch with technical minded people: those who will be interested in Case and those who may become students at Case. There is no limit to radio's range. We can contact the whole U. S. and foreign countries. The station can serve the Case Community by the handling of message traffic, phone patches, and Amateur Radio Telegrams (where legal; not all countries) This operation does take equipment and the equipment does cost money. Thank you for your considerations.

PROPOSED BUDGET

1963-64

ORGANIZATION Case Amateur Radio Club

<u>Expenses</u>	<u>1962-63 Budget</u>	<u>1963-64 Proposed Budget</u>
Stationery items (paper, pencils, record books, etc)	none	10
✓ Call Books, log books		16
Replacement tubes		25
✓ Antenna Relay		15
Coax Cable		30
✓ QSL cards with Case seal		25
✓ Tools (soldering gun, pliers, etc.)		10
Switches, wire, plugs, etc. for station control and safety.		10
✓ New Equipment fund (we would like to be able, in a few years, to purchase some club-owned equipment. By starting a fund now, some quality equipment could be used by the club within a few years.)		500
Coax fittings (to go with above cable)		5
	Total	\$ 646.00

Income

Dues: 50¢ per month per member.
